Certificates Will be Provided. Course Size is Limited to the First 30 to Register to Stay
Interactive * Train from the Home or Office***

TUITION COST IS ONLY \$100.00 FOR EACH ATTENDEE

WE ARE CONDUCTING MORE TRAINING WEBINARS FOR AGENCIES WHO ARE
SHORT PERSONNEL OR TRAINING FUNDS TO TRAVEL. WE HAVE CONDUCTED
SEVERAL WEBINARS WITH A LOT OF SUCCESS AND A LOT OF COURSE
PARTICIPATION FROM THE SAFETY OF HOME. WE HOPE YOU CAN TAKE PART. BE
SAFE.

Course objective is to train the patrol supervisor, officer, and other first responders how to approach and manage a homicide or suspicious death scene prior to the arrival of scene investigators. This level of management is called assessment and many times most mistakes are made during this phase. Many patrol officers lack the training, experience and basic understanding of managing the scene of a homicide and avoiding too much traffic and cross contamination awareness, while at the same time establishing safe boundaries that will encompass all of the circumstantial evidence. Crime scene management begins with the arrival of the first officer on scene and continues through both scene and homicide investigators. We all have certain responsibilities at various levels of a homicide investigation as it applies to the scene. The most important and often overlooked are the responsibilities of patrol. Know what to do before critical errors and possibly the loss of vital evidence takes place. It's always been a simple rule in homicide investigation; how the initial scene is handled by patrol has a profound effect on the entire investigation. This one day class is designed to benefit those in patrol so they may understand what role they play not only in the initial securing of a homicide scene, but also provides them with a good understanding of circumstantial evidence recognition, preservation and documentation. Because patrol officers cannot often have days off for training resulting from manpower restrictions, this course has been condensed to 8 hours to make it easier for them to attend. The instructor for this course is Inv. David Newman (Ret.) from the Norfolk Police Department in Virginia.

POLICE LINE DO NOT CROSS INSIDE THE TAPE POLICE LINE DO NOT CROSS

THE INSTRUCTOR for this training course will be Investigator David Newman (RET) from the Norfolk Police Department in Virginia. Investigator Newman is a 23-year veteran of the Norfolk P.D. formerly assigned to the forensic / homicide unit. His experience in Norfolk includes over 15 years in the bureau serving in homicide & forensics and involvement in over 500 death investigations and high-profile homicides. While serving in forensics he has handled over 2300 cases including an additional 65 homicides. Investigator Newman received his bachelor's degree from Old Dominion University in 1986 in Criminal Justice with a minor in Psychology. He has lectured over 3000 hours to law enforcement agencies across the country on the topic of homicide investigation and its related forensic applications. His courses have been taught in conjunction with the Virginia State Division of Forensic Science and the Office of the Chief Medical Examiner. Investigator Newman also instructs basic and advanced forensics at Thomas Nelson College in Virginia, equivocal death scenes at the Virginia State Division of Forensic Science and is a qualified expert in death investigation and its related forensic fields. He has provided hundreds of hours of expert testimony in criminal court proceedings and is a nationally recognized speaker and authority on this subject.

Course Topics to Include:

- *The objective mindset during the initial response
- *Initial scene assessment outlined by S.O.P and protocol
- *Significance of scene preservation, documentation & accountability
- *Review of the key responsibilities during the active phase assessment
- *Responsibilities outside of the defined crime scene boundaries
- *Crime scene contamination issues and sources
- *Update on DNA resources and genealogy
- *The suicide scene
- *The infant death scene
- *The initial assessment safety issues
- *Evaluation of the 911 phone call during the active phase through case review
- *Searching the crime scene and 4th Amendment issues during assessment
- *Establishing proper crime scene boundaries
- *Define through examples the primary crime scene and related secondary scenes
- *How to handle circumstantial evidence during the cursory search in both proactive and reactive scenarios
- *Definition of circumstantial vs. direct evidence broken down into categories
- *How to handle first responding paramedics regarding the pronouncement of death and the differences between presumptive & positive I.D.

Inside the Tape Training was established in 2001 at the request of law-enforcement agencies in the State of Maryland. Since that time, Inside the Tape has developed into one of the most thorough and requested homicide investigation training courses available to law-enforcement today. This training is open to any member of law-enforcement at the state, local and federal level. Medical examiner investigators and coroners are also encouraged to attend this training. This course has been established and developed to benefit those from all levels of experience in the field of homicide and suspicious death investigation.
